

AGENDA

THEMATIC SESSIONS

Topics:

Maritime Industries • Hazards • Weather and Climate • Living Marine Resources and Habitat

This session will consist of four breakout groups, one for each thematic topic listed above. Each group will be comprised of members from each of the four working groups.

Each group will have a facilitator who will assist the group in selecting a person as a recorder (laptop and projector will be in each room) and a presenter. The facilitator will then guide the discussion to insure that at the end of the session useful products have been produced.

The goal of these sessions:

Identify cross-cutting topics and at least one short-term (6 month) project that will involve all working groups and result in an information product for a user group.

Schedule and Facilitator Instructions

9:00 – 9:15	introductions and instructions
9:15 – 9:30	individual written idea generation
9:30 – 10:00	round robin listing of project ideas and selection of top 3
10:00 – 10:45	develop plan of action for top project
10:40 – 11:00	project schedule (tasks, responsible person, timeline)
